

Enphase ensemble technology

Its truly **clean**, **resilient** and **safe**.

Your home receives uinterrupted power whether the grid is up or down.

Your life remains uninterrupted through natural disasters and utility shutdowns.

Here's how Enphase

ensemble technology

revolutionizes home energy management.

And will improve your quality of life.

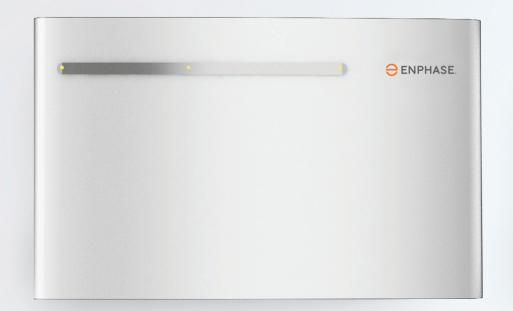

The **Encharge AC battery**

is created with Lithium Ferrous Phosphate cells.

Thus creating a battery that is safe, modular and easy to install.
All with a 10 year warranty.

Available in 3.3 kWh and 10 kWh configurations.

Encharge

Encharge 10™ storage system

Encharge 3™ storage system

The **Enpower Smart Switch** works with your entire system to **automatically** and **seamlessly** ensure the most efficient source of power.

You can use it to integrate with the Enphase Encharge battery, the IQ microinverters, external generators, or the grid itself.

Whereas the Ensemble Technology keeps your system always on,

the IQ Combiner keeps you always connected.

This **loT device** allows for **communication with your installer** and **Enphase** to ensure servicing and, enabling software updates as they are made available.

IQ™ combiner series

Nestled underneath the solar panels and inside the batteries you will find Enphase IQ series of microinverters.

The heart of our distributed architecture that comes with a 25 year limited warranty.

IQ series microinverters

Finally, the **Enlighten App** gives you the control in the palm of your hand and from your Mac or PC.

You can keep an eye on your **production** or **consumption** and see how you are helping our environment every single day.
